CFBG SCHOOL FIELD TRIP GUIDE

EXPLORE & LEARN

All tours & programs meet grade level NC science standards.

Walking Tours

Nature Discovery Hike

Ages: All

The Garden teems with fascinating plants, animals and their signs. See the Garden's highlights around and let the children's keen sense of discovery direct what we learn.

Forest Exploration

Ages: 1st & 3rd grade

An elementary level forest walk on flat terrain. Observe plants, animal signs, habitats, and the Cross Creek. Discuss how animals depend upon the forests, rivers, and the creek.

Flower Investigation

Ages: 1st, 3rd, & 6th grade

What are the different parts of a flower and how are they used in pollination to create new ones? Discover more during this hike.

Heritage Farm Tour

Ages: 3rd, 4th, & 5th grade

Explore life on a NC farm at the turn of the 20th century. This tour includes a look at four historical buildings and our vegetable and herb gardens.

PROGRAMS

Texture Hunt

Ages: Pre-K & K

Use your five senses, especially touch, to explore the Garden. Learn vocabulary and find natural objects of various textures to be used for a craft.

Vermicomposting

Ages: 1st, 2nd & 3rd grade

Discuss where worms live, their adaptations and how they are used to "vermicompost". Explore a worm compost bin for live creatures.

Plants & Photosynthesis

Ages: 3rd, 5th, & 6th grade

Engage in a variety of activities to understand the processes by which plants use sunlight, water, and carbon dioxide to create oxygen and sugars.

Pond Study

Ages: 2nd & 5th grade

Be prepared to get your hands muddy as we explore the pond in search of tadpoles, fish, and dragonfly nymphs! For the health of our pond critters, we can only accommodate two classes per day for this topic.

Insect Adaptations

Ages: 2nd, 4th & 5th grade

Insects can be found in all different types of habitats, but how do they survive? Learn about the different characteristics that help insects survive through hands on activities. You will even get a close up with the insects too.

Seeds and Sprouts

Ages: 1st & 3rd grade

See what is inside a seed, learn how they grow and how they travel. Plant your own seed to take home and watch grow.

PROGRAMS CONT.

Ecosystems

Ages: 5th & 6th grade

Understand how biotic and abiotic factors play an important role in a variety of ecosystems. Discuss the food web using hands-on activities to see how everything is connected.

Reptiles

Ages: K, 1st, 2nd, 4th & 5th grade

Discover the diversity of reptile characteristics. Then, meet some real live reptiles! For the health of our resident reptiles, we can only accommodate two classes per day for this topic.

Soil Scientists

Ages: 1st & 3rd grade

Explore sand, humus and clay by getting your hands good and soil-y! Become a junior soil scientist by using tools to sample soils around here.
